SKILLS

- **Languages:** C, C++, Python
- **Technologies:** HTML5, CSS3, JavaScript
- **Databases/Tools:** MySQL, DBMS Concepts, Git, GitHub, VS Code
- **Core CS:** Data Structures, Algorithms, Object-Oriented Programming (OOP)

PROJECTS

Student Performance Predictor | *Python, Scikit-learn, ML*

- Built a machine learning regression model to predict academic outcomes based on study indicators such as attendance, study hours, and past scores.
- **Tech Stack:** Python, Scikit-learn, Pandas, NumPy

Face Recognition System | *Python, OpenCV, Deep Learning*

- Developed a real-time face detection and identification pipeline from live video streams using computer vision techniques.
- **Tech Stack:** Python, OpenCV, Deep Learning

Chatbot using NLP | *Python, NLTK*

- Implemented a conversational AI system with text tokenization, lemmatization, and intent classification to interpret and respond to user queries.
- **Tech Stack:** Python, NLTK

TRAINING

Lovely Professional University | **Certificate**

Jun 2026 - Jul 2026

Community Development Project (CDP)

- Conducted a community-based project focused on identifying and understanding real-world social and community-related issues through direct observation and interaction.
- Identified key problems, analyzed their root causes, and studied the needs and challenges faced by the community.
- Planned and implemented suitable activities and interventions based on the identified community needs.
- Interacted with community members and gathered relevant information to understand their perspectives, requirements, and challenges.
- Contributed to awareness-building and community engagement activities aimed at creating positive and sustainable impact.
- Documented the activities, observations, outcomes, and learnings throughout the project, developing practical skills in teamwork, communication, problem-solving, and social responsibility.

CERTIFICATES

- Python Data Structures & Problem Solving | **HackerRank / Coursera** June 2026
- Database Management Systems (DBMS) | **NPTEL / University Course** May 2026
- C++ Object-Oriented Programming Fundamentals | **Cisco Networking Academy** April 2026

ACHIEVEMENTS

- Practicing problem-solving and algorithmic challenges regularly.
- Participating in university coding competitions, workshops, and technical hackathons.
- Building practical software projects and exploring emerging technologies.

EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering — Currently Pursuing (2nd Year)

Jalandhar, Punjab
2025 - 2029

Police DAV Public School

Class 12, Science; Percentage: 79%

Jalandhar, Punjab
2024 - 2025

Army Public School

Class 10; Percentage: 80%

Jalandhar Cantt, Punjab
2021 - 2022
